

Brett D. Wick

Washington University – St. Louis
Department of Mathematics
One Brookings Drive
St. Louis, MO 63130–4899

Phone: 314-935-2984
Fax: 314-935-6839
wick@math.wustl.edu
<http://www.math.wustl.edu/~wick/>

Education:

Brown University
Ph.D. in Mathematics, June 2005
Sc.M. in Mathematics, May 2003

University of Houston
B.S. in Mathematics, May 2001
Minor in Physics, May 2001

Professional Experience:

Robert G. and Maxine W. Scheibe Professor of Mathematics, Fall 2025 – Present.

Chair of the Department of Mathematics, Washington University - St. Louis, Summer 2025 – Present.

Dean's Fellow on Digital Transformations, College of Arts & Science, Washington University in Saint Louis, Summer 2022 – Summer 2024.

Professor of Mathematics, Washington University - St. Louis, Summer 2017 – Present.

Director of Graduate Studies, Washington University - St. Louis, Summer 2017 – Summer 2022.

Associate Professor of Mathematics, Washington University - St. Louis, Fall 2015 – Summer 2017.

Director of Postdoctoral Teaching Effectiveness, School of Mathematics, Georgia Institute of Technology, Fall 2013 – Summer 2015.

Associate Professor of Mathematics, Georgia Institute of Technology, Fall 2012 – Summer 2016.

Assistant Professor of Mathematics, Georgia Institute of Technology, Fall 2009 – Summer 2012.

Palmetto Assistant Professor of Mathematics, University of South Carolina, Fall 2007 – Summer 2009.

Assistant Professor of Mathematics, Vanderbilt University, Fall 2005 – Summer 2007.

Updated April 28, 2026

Visiting Positions:

- Poste Rouge, Aix Marseille Université, Spring 2024 (3 months).
- Visiting Professor, Macquarie University, Summer 2018, 2019 (1 month).
- Poste Rouge, Université Orleans and Université de Nantes, Spring 2017 (3 months).
- Poste Rouge, Université Bordeaux, Summer 2015 (1 month).
- Oberwolfach Simons Visiting Professor, Universität des Saarlandes, Summer 2014 (1 week).
- Professeur Invité, Université Paul Sabatier – Toulouse, Summer 2013 (1 month).
- Bucknell Distinguished Visiting Professor, Fall 2009, Fall 2010, Spring 2014 (1 week).
- Professeur Invité, Université Paul Verlaine – Metz, Summer 2009 (1 month).

Teaching Experience:

Washington University - St. Louis:

- Graduate Harmonic Analysis, Fall 2017, Fall 2019, Fall 2021, Spring 2026.
- Graduate Complex Analysis, Fall 2018, Spring 2019, Spring 2025.
- Professional Development Seminar, Fall 2024.
- Teaching Seminar, Fall 2024.
- Calculus III, Fall 2023.
- Linear Algebra, Fall 2022.
- Calculus II, Fall 2022.
- Introduction to Real Analysis, Spring 2022.
- Probability, Spring 2021.
- Differential Equations, Fall 2020.
- Foundations of Mathematics, Fall 2019.
- Graduate Real Analysis, Fall 2016.
- Calculus I, Spring 2018, Fall 2015 (Two Sections).

Georgia Institute of Technology:

Calculus III, Fall 2009, Fall 2013, Fall 2014.
Foundations of Mathematical Proofs, Spring 2014.
Undergraduate Real Analysis II, Spring 2013.
Undergraduate Real Analysis I, Fall 2012.
Graduate Real Analysis II, Spring 2012.
Graduate Real Analysis I, Fall 2011.
Graduate Complex Analysis, Spring 2011.
Analytic Function Theory, Fall 2010.
Calculus III for Computer Scientists, Fall 2009.

Research:

Research Interests:

Harmonic Analysis Several Complex Variables
Function Theory Operator Theory

Awards and Honors:

Research Recognitions:

Fellow of the American Mathematical Society.
NSF CAREER Award, Fall 2010 – Spring 2015.
Alexander von Humboldt Research Fellow, Spring 2010 – Spring 2012.
American Mathematical Society Ky Fan Fund Exchange Fellow, Summer 2013.
Jerrold E. Marsden Postdoctoral Fellow, Fields Institute, Spring 2008.
Wallenberg Postdoctoral Fellow, Swedish Royal Institute of Technology, Fall 2007.
Young Investigator: Workshop in Analysis and Probability, Texas A&M University, Summer 2006.

Mentoring and Teaching Recognitions:

Georgia Tech Hesburgh Award Teaching Fellow, Fall 2015; declined.
Georgia Tech College of Sciences 2014 Faculty Mentor Award.
Georgia Tech Class of 1969 Teaching Scholar, Fall 2012.

Grants Awarded:

1. Australian Research Council – DP260201083 “Harmonic Analysis and Spaces of Functions on Manifolds,” 01/01/2026 – 12/31/2028, \$590,000 (AUD).
2. National Science Foundation – DMS # **2349868** “Testing Theorems in Analytic Function Theory, Harmonic Analysis and Operator Theory”, 07/01/2024 – 06/30/2027, \$310,000.
3. National Science Foundation – DMS # **2402028** “Conference: Geometric Measure Theory, Harmonic Analysis, and Partial Differential Equations: Recent Advances”, 01/15/2024 – 12/15/2024, \$42,000.
4. National Science Foundation – DMS # **2230844** “Conference: Recent Advances and Past Accomplishments in Harmonic Analysis”, 07/01/2022 – 06/30/2024, \$13,500.
5. National Science Foundation – DMS # **2054863** “Symmetry Parameter Analysis of Singular Integrals”, 07/01/21 – 06/30/25, \$197,616.
6. National Science Foundation – DMS # **2000510** “Singular Integrals with Modulation or Rotational Symmetry”, 09/01/19 – 06/30/22, \$131,614.
7. Australian Research Council – DP 220100285 “Harmonic Analysis of Laplacians in Curved Spaces,” 01/01/2022 – 12/31/2024, \$375,000 (AUD).
8. National Science Foundation – DMS # **1954733** “GPOTS 2020”, 02/01/20 – 01/31/21, \$40,000.
9. National Science Foundation – DMS # **1936503** “International Conference on Interpolation in Spaces of Analytic Functions at CIRM”, 07/01/19 – 06/30/20, \$12,000.
10. Australian Research Council – DP 190100970 “Harmonic analysis: function spaces and partial differential equations,” 01/01/2019 – 12/31/2021, \$390,000 (AUD).
11. National Science Foundation – DMS # **1800057** “Applications of Harmonic Analysis to Riesz Transforms and Commutators beyond the Classical Settings”, 07/01/18 – 06/30/23, \$276,758.
12. National Science Foundation – DMS # **1603246** “CAREER: An Integrated Proposal Based on the Corona Problem”, 08/01/10 – 07/31/16, \$36,570.
13. National Science Foundation – DMS # **1560955** “Applications of Harmonic Analysis to Function Theory and Operator Theory”, 08/17/15 – 06/30/2020, \$180,001.
14. National Science Foundation – DMS # **1500509** “Applications of Harmonic Analysis to Function Theory and Operator Theory”, 07/01/15 – 07/31/2018, \$180,001.
15. National Science Foundation – DMS # **1344199** “MCTP: A Postdoctoral Program for Interdisciplinary Mathematics Preparation And Career Training (IMPACT) in the School of Mathematics at the Georgia Institute of Technology”, 09/15/14 – 03/31/2021, \$1,299,994 (Co-Principal Investigator).
16. National Science Foundation – DMS # **1241272** “NSF/CBMS Regional Conference in the Mathematical Sciences: Uncertainty Principles in Harmonic Analysis: Gap and Type Problems”, 09/15/12 – 8/31/2013, \$35,050 (Co-Principal Investigator).

17. National Science Foundation – DMS # [1200994](#) “The Corona Problem: Connections Between Operator Theory, Function Theory and Geometry”, 11/01/11 – 10/31/2012, \$18,000.
18. National Science Foundation – DMS # [1001098](#) “Function Theory and Operator Theory via Harmonic Analysis on the Polydisc”, 06/01/10 – 05/31/13, \$53,003.
19. National Science Foundation – DMS # [0955432](#) “CAREER: An Integrated Proposal Based on the Corona Problem”, 08/01/10 – 07/31/15, \$449,439.
20. National Science Foundation – DMS # [0969431](#) “SEAM XXVI Georgia Institute of Technology Spring 2010”, 01/01/10 – 12/31/10, \$24,300.
21. National Science Foundation – DMS # [0752703](#) “Investigations on the Corona Problem and a Study of Multi-Parameter Harmonic Analysis”, 08/16/07 – 07/31/09, \$58,907.
22. National Science Foundation – DMS # [0555896](#) “Investigations on the Corona Problem and a Study of Multi-Parameter Harmonic Analysis”, 08/16/06 – 07/31/09, \$80,867.

Publications:

Preprints:

1. Ji Li, Chong-Wei Liang, Brett D. Wick, Liangchuan Wu and Qingyan Wu, Haar bases for multi-parameter twisted structures.
2. Ji Li, Trang T.T. Nguyen, Lesley A. Ward and Brett D. Wick, Non-homogeneous $T(1)$ Theorem on Product Quasimetric Spaces.
3. Xuan Thinh Duong, Ji Li, Yumeng Ou, Jill C. Pipher and Brett D. Wick, Weighted Estimates of Singular Integrals and Commutators in the Zygmund Dilation Setting.
4. Xuan Thinh Duong, Hong-Quan Li, Ji Li, Brett D. Wick and Qingyan Wu, Kernel Behavior of Riesz Transforms and Second Order Riesz Transforms on Stratified Lie Groups.
5. Michael Lacey, Eric Sawyer, Chun-Yen Shen, Ignacio Uriarte-Tuero and Brett D. Wick, Two Weight Inequalities for the Cauchy Transform from \mathbb{R} to \mathbb{C}_+ .
6. Michael Lacey and Brett D. Wick, Two Weight Inequalities for Riesz Transforms: Uniformly Full Dimension Weights.
7. Xuan Thinh Duong, Ji Li and Brett D. Wick, Two Weight Commutators for Beurling-Ahlfors Operator.
8. Mishko Mitkovski and Brett D. Wick, On the Uniqueness Sets in the Fock Space.

Submitted:

1. Qingquan Deng, Ji Li, Xiuhong Long and Brett D. Wick, Cauchy Problem For The Nonlinear Hartree Equation In The Bessel Setting, submitted *Nonlinear Anal. RWA* (12-30-2025)
2. A. Walton Green, Ljupcho Petrov, and Brett D. Wick, An A_2 Theorem for One-Sided Calderón–Zygmund Operators, submitted to *Rev. Mat. Iberoam.* (11-28-2025).

3. Francesco D’Emilio, Yongxi Lin, Nathan Wagner and Brett D. Wick, Optimal Sparse Bounds and Commutator Characterizations Without Doubling, submitted to Anal. PDE (10-30-2025).
4. Eric T. Sawyer and Brett D. Wick, The Hytönen-Vuorinen L^p Conjecture for the Hilbert Transform when $\frac{4}{3} < p < 4$ and the measures share no point masses, submitted to Mathe- matika (10-28-2025).
5. Der-Cheng Chang, Ruming Gong, Ji Li, Chong-Wei Liang, Brett D. Wick and Liangchuan Wu, Sharp Upper and Lower L^p Bounds for Dunkl Area Integrals, submitted to Springer Applied and Numerical Harmonic Analysis (07-04-2025).
6. Xuan Thinh Duong, Loredana Lanzani, Ji Li and Brett D. Wick, The Commutator of the Cauchy-Szegő Projection for Domains in \mathbb{C}^n with Minimal Smoothness: Weighted Regularity, submitted to J. Geom. Anal. (04-14-2025).
7. Michael T. Lacey, Ji Li, Brett D. Wick and Liangchuan Wu, Two weighted Besov spaces via Sobolev–Slobodeckii norms, submitted to J. Geom. Anal. (01-20-2025).
8. Francesco Di Plinio, Walton Green and Brett D. Wick, Wavelet Resolution and Sobolev Regularity of Calderón-Zygmund Operators on Domains, submitted to Proc. Lond. Math. Soc. (08-09-2024).
9. Ming-Yi Lee, Ji Li and Brett D. Wick, Lipschitz spaces in Neumann setting, submitted to Commun. Contemp. Math. (05-10-2022).

Talks, Conferences, and Workshops:

Talks:

Colloquium Talks:

University of North Carolina, Spring 2025.

University of Missouri, Spring 2023.

University of New Mexico, Spring 2023.

Indian Institute of Science Education and Research Kolkata, India, Fall 2021.

Duke Kunshan University, Fall 2021.

University of Wisconsin, Madison, Spring 2020.
Macquarie University, Summer 2016.
University of Hawaii, Spring 2016.
Baylor University, Spring 2013, Fall 2015.
Washington University, St. Louis, Spring 2012, Fall 2014.
Universität des Saarlandes, Spring 2014.
Bucknell University (2 talks), Fall 2009, Fall 2010, Spring 2014.
University of Waterloo, Spring 2014.
University at Albany, State University of New York, Fall 2013.
University of Alabama - Birmingham, Spring 2013.
University of Wisconsin - Milwaukee, Fall 2012.
University of Rochester, Fall 2012.
Fields Institute 20th Anniversary “Back to Fields Colloquium”, Summer 2012.
United States Naval Academy, Spring 2012.
Trinity University, Spring 2012.
University of Cincinnati, Spring 2012.
University of Alabama, Fall 2011.
University of Houston, Spring 2009.
Texas A&M University, Spring 2007, Spring 2009.
University of South Florida, Spring 2009.
Georgia Institute of Technology, Spring 2009.
University of Tennessee – Knoxville, Spring 2007.
University of South Carolina, Spring 2007.
University of Alabama – Tuscaloosa, Spring 2007.

Seminar Talks:

Brown University Analysis Seminar, Spring 2004, Fall 2004, Spring 2005, Fall 2008, Fall 2011, Fall 2012, Fall 2014, Spring 2026.

Analysis Seminar, Tufts University, Spring 2025.

Aix-Marseille Université, Institut de Mathématiques de Marseille, Spring 2024.

Université Paul Sabatier, Institut de Mathématiques de Toulouse, Spring 2024.

Analysis and Geometry Seminar, Ohio State University, Spring 2023.

Analysis and Geometry Seminar, Chapman University, Spring 2022.

Corona Seminar: Inequalities on Function Spaces of Smooth Functions, Fall 2021.

Probability and Analysis Webinar, Fall 2021.

Virtual East-West Complex Analysis Seminar, Spring 2021.

Leibniz Universität, Hanover, Spring 2010, Spring 2014, Summer 2016, Fall 2020.

Okinawa Institute of Science and Technology, Fall 2020.

Kent State University Analysis Seminar, Fall 2020.

Clemson University Analysis Seminar, Spring 2013, Spring 2015, Fall 2020.

Macquarie University, Spring 2020.

Washington University, St. Louis, Analysis Seminar, Spring 2019.

Université de Grenoble Alpes, Spring 2018.

Université d'Orsay – Paris Sud, Spring 2009, Spring 2017.

Université Pierre-et-Marie-Curie – University of Paris 6, Spring 2009, Spring 2017.

Université de Nantes, Analysis Seminar, Spring 2017.

Université de Bordeaux, Analysis Seminar, Summer 2015, Fall 2015, Fall 2016.

University of Hawaii Analysis Seminar, Spring 2016.

Universitat de Barcelona, Departamento de Análisis Matemático, Spring 2016.

Georgia Institute of Technology Analysis Seminar, Fall 2004, Fall 2005, Fall 2006, Fall 2008, Spring 2010, Spring 2012, Spring 2016.

Washington University - St. Louis Graduate Seminar, Fall 2015.

Johns Hopkins University Analysis Seminar, Fall 2014.

Brown University Analysis Seminar, Spring 2004, Fall 2004, Spring 2005, Fall 2008, Fall 2011, Fall 2012, Fall 2014.

Southwestern University of Finance and Economics, School of Economic Mathematics, Summer 2014.

Georgia Institute of Technology Research Horizons Seminar, Fall 2009, Spring 2011, Fall 2012, Spring 2014.

Instituto Argentino de Matemática, University of Buenos Aires, Fall 2013.

Fudan University Analysis Seminar, Summer 2013.

Beijing Normal University Analysis Seminar, Summer 2013.

University of Cincinnati, Spring 2012.

Georgia Institute of Technology Undergraduate Seminar, Fall 2010, Fall 2011.

Washington University - St. Louis Analysis Seminar, Fall 2011.

Kansas State University Analysis Seminar, Fall 2011.

Kennesaw State University Analysis Seminar, Fall 2010.

Norwegian University of Science and Technology, Department of Mathematical Sciences, Trondheim, Norway, Spring 2010.

Universidad de Sevilla, Departamento de Análisis Matemático, Spring 2010.

Université Paul Sabatier, Institut de Mathématiques de Toulouse, Spring 2010.

University of Edinburgh, Spring 2010.

Universität Paderborn, Spring 2010.

Università di Trento, Spring 2009.

Université d'Orléans, Spring 2009.

University of South Carolina, Fall 2008, Spring 2009.

Université Paul Verlaine – Metz, Department of Mathematics Analysis Seminar, Fall 2007, Spring 2009.

Michigan State University, Department of Mathematics Analysis Seminar, Spring 2008, Fall 2008, Spring 2009.

University of Missouri Analysis Seminar, Fall 2008.

University of Houston Analysis Seminar, Fall 2006, Fall 2008.

Texas A&M University Analysis Seminar, Fall 2008.

Cornell University Analysis Seminar, Fall 2005, Spring 2008.

Fields Institute Harmonic Analysis Seminar, Spring 2008.

University of Jyväskylä, Department of Mathematics Analysis Seminar, Fall 2007.

University of Helsinki, Department of Mathematics Analysis Seminar, Fall 2007.

London School of Economics, Department of Mathematics CDAM Seminar, Fall 2007.

The Royal Institute of Technology (KTH), Department of Mathematics Analysis Seminar, Fall 2007.

Vanderbilt University, Fall 2005, Spring 2007.

University of Tennessee – Knoxville Analysis Seminar, Fall 2005.

Conference and Workshop Talks:

Plenary Speaker, NTNU/NCTS Conference on Harmonic Analysis, Taipei, Taiwan, December 16-18, 2026.

Plenary Speaker, New trends in Harmonic Analysis, Universidad Autónoma de Madrid, June 1-5, 2026.

Plenary Speaker, 15th Ohio River Analysis Meeting (ORAM 15), University of Kentucky, March 21-22, 2026.

American Mathematical Society Fall Eastern Virtual Sectional Meeting, Special Session on Current Developments in Harmonic Analysis, October 25-26 2025.

Plenary Speaker, Recent Advances in Operator Theory and its Applications, Politecnico di Milano, Italy, June 3-6, 2025.

Plenary Speaker, Advances in Operator Theory with Applications to Mathematical Physics, Chapman University, November 18-22, 2024.

Plenary Speaker, 2024 Fall Fourier Talks, University of Maryland, October 24-25, 2024.

Plenary Speaker, European Satellite Conference in Harmonic Analysis, University of Malaga, Malaga Spain, July 12-16, 2024.

Plenary Speaker, Harmonic Analysis and Differential Equations - In Honour of Professor Jill Pipher, Macquarie University, June 23-29, 2024.

Plenary Speaker, Shapes and Shades of Analysis: in depth and beyond, Centre International de Rencontres Mathématiques, Marseille, France April 29 - May 3, 2024.

Plenary Speaker, Workshop in Analysis, Georgia Institute of Technology, December 8-10, 2023.

Plenary Speaker, Conference in Honor of The 70th Birthday of David Bekolle, December 4-8, 2023 (online participation; two talks).

Plenary Speaker, Midwest Asymptotic Analysis Seminar, Indiana University Purdue University of Indianapolis, October 13-15, 2023.

Plenary Speaker, IWOTA 2023, University of Helsinki, Helsinki, Finland, July 31-August 4, 2023.

Plenary Speaker, GPOTS 2023, Ohio State University, Columbus, Ohio, May 15-19 2023.

Plenary Speaker, MATRIX-RIMS Tandem Workshop: Geometric Analysis in Harmonic Analysis and PDE, MATRIX, Melbourne, Australia, March 27-31 2023.

Plenary Speaker, Conference on Fractional Integrals and related phenomena in Analysis, National Center for Theoretical Sciences, Taiwan/Online, December 19-23, 2022.

Plenary Speaker, Harmonic Analysis and Related Topics, Centre de Recerca Matemàtica, Barcelona, Spain, June 13-17 2022.

Plenary Speaker, Operators, Functions, Systems: Classical and Modern, Bedlewo, Poland, June 12 - June 18 2022 (cancelled participation for another conference).

Plenary Speaker, 2022 Workshop on Operator Theory with an Eye on Linear Systems and Hypercomplex Analysis, May 28 - June 4 2022, Chapman University.

Plenary Speaker, Workshop on Classical Analysis and Applications V, Cameroon/Online, December 6-11, 2021.

Plenary Speaker, The Corona Problem, The Fields Institute, Toronto, Canada, November 8-12, 2021.

Plenary Speaker, Analysis and Control, Bordeaux 2020, University of Bordeaux, Bordeaux, France, July 6-8, 2021.

Plenary Speaker, 2021 Indam Workshop on Bergman Projections and Related Topics, June 3-6, 2021.

Plenary Speaker, Fifth Operator Theory Workshop, University of Reading, Reading, United Kingdom, October 21–23 2020.

Plenary Speaker, Harmonic Analysis and Dispersive PDEs: Problems and Progress, MATRIX Institute, University of Melbourne, Melbourne, Australia, February 3-7 2020.

Plenary Speaker, MW-SCV-19: Midwest Several Complex Variables Conference, University of Michigan - Dearborn, October 11-13, 2019.

Plenary Speaker, Analysis Mathematica International Conference, Budapest, Hungary, August 12-17 2019.

Plenary Speaker, Summer Symposium in Real Analysis XLIII, Trinity University, June 24-29 2019.

American Mathematical Society Spring Sectional Meeting, Special Session on Spaces of Holomorphic Functions and Their Operators, University of Hawaii at Manoa, March 22-24 2019.

Plenary Speaker, Southeastern Analysis Meeting (SEAM) XXXIV, Georgia Institute of Technology, March 23-25 2018.

Plenary Speaker, Finnish Mathematical Days, University of Eastern Finland, Joensuu, Finland, January 4-5, 2018.

Plenary Speaker, Journées de GDR d'Analyse, University of Bordeaux, Bordeaux, France, October 9-11, 2017.

Plenary Speaker, The AMSI/AustMS 2017 Workshop in Harmonic Analysis and its Applications, Macquarie University, Sydney, Australia, July 17-21, 2017.

Plenary Speaker, XIV Advanced Course in Operator Theory and Complex Analysis, Instituto de Ciencias Matemáticas, Madrid, Spain, June 19-22, 2017.

Recent Trends in Harmonic and Complex Analysis, University of Orléans, Orléans, France, April 3-5, 2017.

Harmonic Analysis/PDEs Workshop, University of Birmingham, Birmingham, United Kingdom, March 14, 2017.

American Mathematical Society Joint Mathematics Meeting 2017, Special Session on Operator theory, function theory, and models, Atlanta, GA, January 4-7 2017.

Plenary Speaker, Northeastern Analysis Meeting, SUNY Brockport, Brockport, New York, October 14-16, 2016.

Plenary Speaker, Summer Informal Regional Functional Analysis Seminar (SUMIRFAS), Texas A&M University, College Station, Texas, July 29-31, 2016.

Probabilistic Harmonic Analysis and Spectral Theory, Institut Mittag-Leffler, Stockholm, Sweden, July 11- 15 2016.

Workshop on Operator Theory and Complex Analysis 2016, Coimbra, Portugal, June 21-24, 2016.

Singular Integrals and Partial Differential Equations, University of Helsinki, Helsinki, Finland, May 24-27 2016.

Virginia Operator Theory and Complex Analysis Meeting (VOTCAM), November 7 2015.

Completeness Problems, Carleson Measures, and Spaces of Analytic Functions, Institut Mittag-Leffler, Stockholm, Sweden, June 29-July 3 2015.

Mini-Course Instructor, Spring School of the French GDR Network Harmonic and Functional Analysis, Probability and Applications, June 4-6 2015.

Plenary Speaker, Conference on Harmonic Analysis, Operator Theory and Applications, Université de Bordeaux, Bordeaux, France, June 1-4 2015.

Multivariate Operator Theory, Banff International Research Station, Banff, Alberta, Canada, April 5-10 2015.

Plenary Speaker, Southeastern Analysis Meeting (SEAM) XXXI, University of Georgia, March 8-9 2015.

Function Spaces and Harmonic Analysis, Centre International de Rencontres Mathématiques, Marseille, France, October 27-31 2014.

AMSI/AustMS 2014 Workshop in Harmonic Analysis and its Applications, Macquarie University, Sydney, Australia, July 21-25 2014.

Plenary Speaker, International Analysis Conference, Chongqing University, Chongqing, China, June 26-29 2014.

Mini-Course Instructor, Summer School in Analysis, Chongqing University, Chongqing, China, June 23-25 2014.

Mini-Course Instructor, Summer School in Complex and Harmonic Analysis and Related Topics, University of Eastern Finland, Mekkijärvi, Finland, June 14-18 2014.

Plenary Speaker, Conference in Honor of Aline Bonami, Orléans, France, June 10-13 2014.

The Seventh Conference on Function Spaces, Southern Illinois University - Edwardsville, May 20-24 2014.

Hilbert Modules and Complex Geometry, Oberwolfach, April 20-26 2014.

American Mathematical Society Spring Sectional Meeting, Special Session on Harmonic Analysis and Operator Theory, University of New Mexico, April 5-6 2014.

American Mathematical Society Fall Sectional Meeting, Special Session on Operator Theory, Washington University St. Louis, October 18-20 2013.

Plenary Speaker, Invariant Subspaces of the Shift Operator, Centre de Recherches Mathématiques, Montreal, Canada, August 26-30 2013.

Plenary Speaker, Banach Algebras 2013, Gothenburg, Sweden, July 29 - August 4 2013.

Atlantic Association for Research in the Mathematical Sciences Workshop on Analytic Spaces and Their Operators, St. John's, Newfoundland and Labrador, Canada, July 9-12 2013.

Joint International Meeting of the AMS and the Romanian Mathematical Society, Special Session on Operator Theory and Function Spaces, June 27-30 2013.

Plenary Speaker, Chongqing Analysis Meeting IV, University of Chongqing, Chongqing, China, June 1 2013.

Plenary Speaker, Hilbert Function Spaces, Gargnano sul Garda, Italy, May 20 - May 24 2013.

Georgia Analysis Symposium, University of Georgia, March 1-2 2013.

Plenary Speaker, Recent Advances in Operator Theory and Operator Algebras, Bangalore, India, December 31 2012 - January 12 2013.

American Mathematical Society Fall Sectional Meeting, Special Session on Complex Analysis and its Broader Impacts, University of Akron, October 20-21 2012.

Mini-Course Instructor, Recent Advances in Harmonic Analysis and Spectral Theory, Texas A&M University, August 6-10 2012.

Plenary Speaker, 24th International Conference on Operator Theory, Timisoara, Romania, July 2-7 2012.

Plenary Speaker, The Corona Problem: Connections between Operator Theory, Function Theory and Geometry, Fields Institute, June 18-22 2012.

Plenary Speaker, Great Plains Operator Theory Symposium, University of Houston, May 29 - June 3 2012.

Plenary Speaker, Frames and Bases of Analytic Functions, Toulouse, France, May 23-25 2012.

Operator Related Function Theory, Erwin Schrödinger Institute, Vienna, Austria, March 26-31 2012.

American Mathematical Society Spring Sectional Meeting, Special Session on Holomorphic Spaces, University of Hawaii, March 3-4 2012.

American Mathematical Society Joint Mathematics Meeting 2012, Special Session on Several Complex Variables and Multivariable Operator Theory, Boston, MA, January 4-7 2012.

American Mathematical Society Fall Sectional Meeting, Special Session on Multivariable Operator Theory, Cornell University, September 10-11 2011.

Approximation Theory and Harmonic Analysis Workshop, Kennesaw State University, May 14-15 2011.

Second Buea International Conference on the Mathematical Sciences, Buea, Cameroon May 8-13 2011.

Plenary Speaker, Southeastern Analysis Meeting (SEAM) XXVII, University of Florida, March 17-19 2011.

Invited Address, American Mathematical Society Southeast Sectional Meeting, Georgia Southern University, March 12-13 2011.

Waves and Spectra, Texas A&M University, January 11-14 2011.

Wellposedness and Controllability of Evolution Equations, Oberwolfach, December 12-18 2010.

Operator Theory and Harmonic Analysis, Oberwolfach Conference, October 31 - November 6 2010.

American Mathematical Society Fall Sectional Meeting, Special Session on Harmonic Analysis, Syracuse University, October 2-3 2010.

Multivariate Operator Theory, Banff International Research Station, August 15-20 2010.

Harmonic Analysis: A Retrospective Workshop, Fields Institute, May 31 - June 4 2010.

Plenary Speaker, UK Harmonic Analysis and PDE Research Network, Glasgow, February 23 2010.

Auburn Conference on Harmonic Analysis and Related Topics, December 3-5 2009.

Workshop on Operator Theory and Applications, International Centre of Mathematical Sciences, Edinburgh, September 7-11 2009.

Seminar for the Research Programme: Harmonic Analysis, Geometric Measure Theory and Quasiconformal Mappings, May 10-25 2009.

Hilbert Modules and Complex Geometry, Oberwolfach Conference, April 6-10 2009.

Auburn Conference on Harmonic Analysis and Related Topics, November 20-22 2008.

St. Petersburg Summer Meeting in Mathematical Analysis, June 23 -27 2008.

Seminar at the Workshop in Analysis and Probability, Texas A&M University, Summer 2005, Summer 2006, Summer 2008.

American Mathematical Society Spring Sectional Meeting, Special Session on Harmonic Analysis, University of Indiana – Bloomington, April 5-6 2008.

Southeastern Analysis Meeting (SEAM) XXIII, University of Richmond, March 9-11 2007.

Prairie Analysis Seminar, October 13-14 2006.

Plenary Speaker, Southeastern Analysis Meeting (SEAM) XXII, University of Florida, March 2-5 2006.

International Workshop on Operator Theory and its Applications (IWOTA), Newcastle England, July 12-16 2004.

Conference and Workshop Participation:

Fractals 8, Cornell University, June 16-20, 2025.

Analytic Function Spaces, Their Operators and Applications, Centre International de Rencontres Mathématiques, December 2-6, 2024.

Superscillations - Theoretical Aspects and Applications Symposium III, Grand Hotel San Michele in Cetraro (CS), Italy, June 12-16, 2024.

Les journées du GdR AFHP 2023 - Porquerolles, France October 24-27, 2023.

Real Analysis and Geometry, Centre International de Rencontres Mathématiques, Marseille, France, June 12-16, 2023.

Southeastern Analysis Meeting (SEAM) XXXIX, Clemson University, March 9-11 2023.

Superscillations - Theoretical Aspects and Applications Symposium II, Grand Hotel San Michele in Cetraro (CS), Italy, June 25-26 2022.

Great Plains Operator Theory Symposium, Washington University in Saint Louis, May 10-14 2021 (virtual) and May 23-27 2022 (in person).

International Workshop on Operator Theory and its Applications (IWOTA), Washington University - St. Louis, July 18-22, 2016.

Southeastern Analysis Meeting (SEAM) XXX, Clemson University, March 7-8 2014.

Southeastern Analysis Meeting (SEAM) XXIX, Virginia Tech, March 15-16 2013.

Weighted Inequalities for Singular Integral Operators, American Institute of Mathematics, October 10-14 2011.

Southeastern Analysis Meeting (SEAM) XXVI, Georgia Institute of Technology, March 2010.

Centro Internazionale per la Ricerca Matematica Research in Pairs: Bilinear Forms on Spaces of Analytic Functions, Trento, Italy, June 14-28 2009.

Harmonic Analysis, Geometric Measure Theory and Quasiconformal Mappings, May 10-25 2009.

Oberwolfach, Research in Pairs: Logarithmic Mean Oscillation and Hankel Operators, March 23 - April 4 2009.

Small Ball Inequalities in Analysis, Probability, and Irregularities of Distribution, American Institute of Mathematics, December 7-13 2008.

Workshop in Analysis and Probability, Texas A & M University, Summer 2005, Summer 2006, Summer 2008.

Function Spaces and Their Operators, A Conference in Honor of Richard Rochberg, Washington University – St. Louis, May 28-31 2008.

Southeastern Analysis Meeting (SEAM) XXIV, Vanderbilt University, March 5-9 2008.

Thematic Program on New Trends in Harmonic Analysis, Fields Institute, January – June 2008.

Potential Theory and its Applications, A Conference in Honor of Björn Gustafsson, The Royal Institute of Technology (KTH), October 17 2007.

The Kadison-Singer Problem, American Institute in Mathematics, September 25-29 2006.

Shanks Workshop: Composition of Haar Paraproducts, Vanderbilt University, May 20-21 2006.

BANFF-PIMS, Research in Teams: Multi-Parameter Nehari Theorems, March 20-24 2006.

Workshop on Multi-Scale Geometry and Analysis in High Dimensions, Institute for Pure and Applied Mathematics, UCLA, November 8-12 2004.

Summer School on Hamiltonian Mechanics and Integrable Systems, UCLA/Cal Tech, September 12-17 2004.

NSF/CBMS Regional Conference in Mathematical Sciences: Wave packets, Multi-linear Operators and Carleson Theorems, Georgia Tech, May 23-28 2004.

Park City Mathematics Institute Summer School on Harmonic Analysis and Partial Differential Equations, Park City, Utah, June 29 - July 19 2003.

Spring School on Analysis in Paseky, Czech Republic, June 1-7 2003.

Conferences and Workshops Organized:

Geometric Harmonic Analysis in the discrete and continuous settings, BIRS IMAG, Granada, June 7-12, 2026.

Special Session: Harmonic Analysis and Partial Differential Equations, American Mathematical Society Southeast Sectional Meeting, Saint Louis University, October 18-19 2025.

Expanding Pathways in Harmonic Analysis, Washington University in Saint Louis, April 4-7, 2025.

Harmonic Analysis and Differential Equations - In Honour of Professor Jill Pipher, Macquarie University, June 23-29, 2024.

TV: A Conference in Honor of Alexander Volberg and Sergei Treil, University of Wuerzburg, June 5-9, 2023.

Several Complex Variables: A Conference in Honor of Steve Krantz, Washington University in Saint Louis, May 22-23, 2023.

Guido Weiss Memorial Conference On Harmonic Analysis, Washington University in Saint Louis, October 8-9, 2022.

GPOTS 2020, Washington University in Saint Louis, May 10-14 2021, May 23-27 2022.

Interpolation in Spaces of Analytic Functions, Centre International de Rencontres Mathématiques, Marseille, France, November 18-22 2019.

Special Session: Harmonic Analysis and Applications, American Mathematical Society Southeast Sectional Meeting, University of Georgia, March 5-6 2016.

NSF/CBMS Regional Conference in the Mathematical Sciences: Uncertainty Principles in Harmonic Analysis: Gap and Type Problems, June 17-22 2013.

The Corona Problem: Connections between Operator Theory, Function Theory and Geometry, Fields Institute, June 18-22 2012.

MSRI Summer Graduate Workshop “The Dirichlet Space: Connections between Operator Theory, Function Theory, and Complex Analysis”, June 20 - July 1 2011.

Centre International de Mathématiques Pures et Appliquées (CIMPA School): “Real and Complex Analysis with Applications to other Sciences”, Buea (Cameroon), May 1-14 2011.

Special Session: Harmonic Analysis and Applications, American Mathematical Society Southeast Sectional Meeting, Georgia Southern University, March 12-13 2011.

Southeastern Analysis Meeting (SEAM) XXVI, Georgia Institute of Technology, March 25-28 2010.

Southeastern Analysis Meeting (SEAM) XXIV, Vanderbilt University, March 5-9 2008.

Research Programs:

Hausdorff Institute for Mathematics Research in Groups: Borderline Problems with Singular Integrals, May 17 - June 12 2015 and May 22 - June 17 2016.

Banff-PIMS, Research in Teams: Sarason Conjecture and the Composition of Paraproducts, November 4-11 2012.

Centro Internazionale per la Ricerca Matematica Research in Pairs: Bilinear Forms on Spaces of Analytic Functions, Trento, Italy, June 14-28 2009.

Oberwolfach, Research in Pairs: Logarithmic Mean Oscillation and Hankel Operators, March 23 - April 4 2009.

Shanks Workshop: Composition of Haar Paraproducts, Vanderbilt University, May 20-21 2006.

Banff-PIMS, Research in Teams: Multi-Parameter Nehari Theorems, March 20-24 2006.

NSF - Graduate Research Fellowship Mentor, Mathematics and Physics Fall 2018.

Graduate School of Arts & Science, Teaching and Professional Development Committee Fall 2017 - Spring 2018.

Mentoring Activities:

Postdoctoral Fellows Mentored:

Brandon Sweeting, Washington University – St. Louis, Fall 2024 – Present.
National Science Foundation Mathematical and Physical Sciences ASCEND Postdoctoral Research Fellowship 2024-2026.

Walton Green, Washington University – St. Louis, Fall 2020 – Spring 2025.
National Science Foundation Mathematical Sciences Postdoctoral Research Fellow 2022-2025
First Employment: Illinois State University

Rosemarie (Tyler) Bongers Washington University – St. Louis, Fall 2018 – Spring 2020.
First Employment: Harvard University, Lecturer
Present Employment: University of California - Merced

Michael Hartz, Washington University – St. Louis, Fall 2016 – Spring 2018.
Alexander von Humboldt Foundation Feodor Lynen Research Fellow
First Employment: FernUniversität in Hagen
Present Employment: Saarlandes Universität

Zhenghui Huo, Washington University – St. Louis, Fall 2016– Spring 2018.
First Employment: University of Toledo
Present Employment: Duke Kunshan University

Irina Holmes, Washington University – St. Louis, Fall 2014 – Spring 2017.
National Science Foundation Mathematical Sciences Postdoctoral Research Fellow 2016-2017
First Employment: Texas A&M University
Present Employment: Texas A&M University

Kelly Bickel, Georgia Institute of Technology, Fall 2013 – Spring 2014.
First Employment: Bucknell University
Present Employment: Bucknell University

Mishko Mitkovski, Georgia Institute of Technology, Fall 2010 – Spring 2012.
First Employment: Clemson University
Present Employment: Clemson University

Svetlana Poznanovik, Georgia Institute of Technology, Fall 2011 – Spring 2012 (teaching).

David Murrugarra, Georgia Institute of Technology, Fall 2012 – Spring 2014 (teaching).

PhD Students Advised:

Georgia Corbett, Washington University – St. Louis, Spring 2026 – Present.

Troy Roberts, Washington University – St. Louis, Fall 2025 – Present.

Francesco D’Emilio, Washington University – St. Louis, Fall 2023 – Present.

Ljupcho Petrov, Washington University – St. Louis, Spring 2023 – Summer 2026.

Thesis Title: TBD

First Position: Dornsife Teaching Fellow in Mathematics at University of Southern California
Best PhD Thesis in the Department of Mathematics Academic Year 2025– 2026

Ana Colovic, Washington University – St. Louis, Spring 2022 – Spring 2025.

Thesis Title: Two Problems: Hankel Operators and Dyadic Paraproducts

First Position: Postdoctoral Fellow at University of Missouri

Best PhD Thesis in the Department of Mathematics Academic Year 2024– 2025

Jeremy Cummings, Washington University – St. Louis, Fall 2021 – Summer 2025.

Thesis Title: Wavelet Representation of Singular Integral Operators

First Position: Instructor of Mathematics at University of South Carolina

Anastasios Fragkos, Washington University – St. Louis, Spring 2022 – Summer 2024.

Thesis Title: Some problems in Harmonic Analysis

First Position: Postdoctoral Fellow at Georgia Institute of Technology

Weiyan (Claire) Huang, Washington University – St. Louis, Fall 2019 – Summer 2023.

Thesis Title: Haar Multipliers in the Context of Weighted Spaces and Bilinear Operators

First Position: Seeking Employment in Industry

Nathan Wagner, Washington University – St. Louis, Fall 2018 – Spring 2022.

Thesis Title: Weighted Estimates for the Bergman and Szegő Projections

NSF Graduate Research Fellow 2019-2022

NSF Postdoctoral Research Fellowship 2022-2025

Best PhD Thesis in the Department of Mathematics Academic Year 2021– 2022

First Position: Tamarkin Assistant Professor, Brown University

Present Position: George Mason University

Tyler Williams, Washington University – St. Louis, Fall 2018 – Fall 2021.

Thesis Title: A Continuous Wavelet Representation for Single and Bi-Parameter Calderón-Zygmund Operators

First Position: Regions Bank, Birmingham, Alabama

Present Position: Same

Manasa Vempati, Washington University – St. Louis, Fall 2017 – Spring 2021.

Thesis Title: Two Weight Inequalities for Calderón-Zygmund Operators and Commutator Operators and Sparse Domination Principles on Spaces of Homogeneous Type

Best PhD Thesis in the Department of Mathematics Academic Year 2020 – 2021

First Position: Postdoctoral Fellow at Georgia Institute of Technology
Present Position: Louisiana State University

Cody Stockdale, Washington University – St. Louis, Fall 2016 – Spring 2020.

Thesis Title: A Different Approach to Endpoint Weak-type Estimates for Calderón-Zygmund Operators

First Position: Postdoctoral Fellow at Clemson University
Present Position: Clemson University

Marie-Jose Kuffner, Washington University – St. Louis, Spring 2016 – Spring 2019.

Thesis Title: Commutators and Weak Factorization

First Position: Postdoctoral Fellow at Johns Hopkins University
Present Position: U.S. Federal Reserve - Saint Louis

Darío Mena Arias, Georgia Institute of Technology, Fall 2014 – Spring 2018.

Thesis Title: Characterization of BMO by Commutators and Sparse Domination of Operators

First Position: University of Costa Rica
Present Position: Same

Ishwari Kunwar, Georgia Institute of Technology, Fall 2014 – Summer 2017.

Thesis Title: Multilinear Dyadic Operators and Their Commutators

First Position: Fort Valley State University
Present Position: Same

Philip Benge, Washington University – St. Louis, Fall 2013 – Spring 2017.

Thesis Title: Paraproducts and Well Localized Operators

First Position: Mississippi School for Mathematics and Science
Present Position:

Robert Rahm, Washington University – St. Louis, Fall 2013 – Spring 2017.

Thesis Title: Weighted Inequalities for Three Operators

First Position: Postdoctoral Fellow at Texas A&M University
Present Position: Texas A&M University

James Scurry, Georgia Institute of Technology, Fall 2008 – Spring 2013.

Thesis Title: One and Two Weight Theory in Harmonic Analysis

Best PhD Thesis in the School of Mathematics Academic Year 2012 – 2013 First Position:
Industry Position
Present Position: U.S. Census Bureau

Visiting Students Mentored:

Shengkun Wu, Chongqing University (visiting Washington University – St. Louis), Fall 2019–Spring 2021.

Taneli Korhonen, University of Eastern Finland, (visiting Washington University – St. Louis), Fall 2016.

Roc Oliver Vendrell, University of Barcelona, (visiting Washington University – St. Louis), Fall 2015.

Mustafa Cemil Bişgin, Erciyes University, (visiting Georgia Institute of Technology), Fall 2013 – Spring 2014.
